Aeromobilities

Edited by Saulo Cwerner, Sven Kesselring, John Urry

"This very interesting, thought-provoking work will be referenced by scholars for many years - Recommended."

-- *Choice*, September 2009

January 2010: 260pp / PB: 978-0-415-58134-9: £22.50

Aeromobilities is a collection of essays that tackle in many different ways the growing importance of aviation and air travel in our hypermobile, globalized world. Providing a multidisciplinary focus on issues ranging from global airports to the production of airspace, from airline work to helicopters, and from movement in airports to software systems, *Aeromobilities* seeks to enhance our understanding of space, time and mobility in the age of mass air travel. From Sao Paulo to Sydney, *Aeromobilities* draws on local experiences of airspaces to generate theory and research that are global in scope. It is the first book of its kind, bringing together a wide range of theoretical and methodological approaches to aviation and air travel in the social sciences and humanities, while emphasizing the central role of aeromobilities in contemporary social relations. In a world where virtually every aspect of social life is touched upon, in one way or another, by the complex global network of airline flows, with its large passenger aircraft and iconic international airports, *Aeromobilities* provides innovative analyses of some of the most fundamental and influential mobility networks of our time.

Table of Contents

Part 1: Aeromobilities, Globalization and Social Theory 1. Aeromobilities and the Global 2. Global Transfer Points: the Making of Airports in the Mobile Risk Society

Part 2: The Production of Airspaces 3. >store>forward> Architectures of a Future Tense 4 Connecting the World: Analyzing Global City Networks Through Airline Flows 5. Airport Codes/Spaces 6. Air Craft: Producing UK Airspace 7. Around the World in 80 Airports

Part 3: The Social Life of Air Travel 8. Airborne on Time 9. A Life in Corridors: Social Perspectives on Aeromobilities and Work in Knowledge Organizations 10. Getting into the Flow

Part 4: Governing Air Travel 11. Science, Expertise, and Local Knowledge in Airport Conflicts: Towards a Cosmopolitical Approach 12. Helipads, Heliports and Urban Air Space: Governing the Contested Infrastructure of Helicopter Travel

What is Routledge Paperbacks Direct?

It is a new publishing initiative to publish the best of our hardback research programme in paperback format. The books are ONLY available as print-on-demand paperbacks for individual (i.e. non-institutional) purchase directly from the Routledge website www.routledge.com/paperbacksdirect

What is the commercial thinking behind the programme?

We understand concerns about the high prices of our hardback-only research monographs. The prices are high because the market for specialist research is not as strong as it once was, and publishers are being forced to publish smaller print runs at higher prices to make the books commercially viable.

With Routledge Paperbacks Direct, we can make our research books available at affordable prices for authors and individual customers to buy, without undermining hardback sales to academic libraries. By selling the books directly on the Routledge Paperbacks Direct website we can pass on cost savings brought about by advances in technology.

How do I place an order?

Routledge Paperbacks Direct books can only be ordered from the Routledge website. Go to www.routledge.com/paperbacksdirect and click on the subject areas to find about the titles available.

Who should I contact if I have any further queries?
